Remarks:

To the best of our knowledge our narcotic and regular APIs are not protected by patent rights in the country of origin of the material. Patents or supplementary protection certificates, however, may still be valid in some countries. Prior to importing, processing or use of our APIs listed, the patent situation will have to be clarified. Products will not be offered for sale to countries where they are covered by valid patents!

Arevipharma is cGMP certified, ANVISA, FDA, KFDA and PMDA (paper) inspected and approved.
